

KAULE ELECTRICAL WEB APPLICATION

PRODUCT BACKLOG

- Quotation and Billing
As a client I want to make quotations and view the bills on the web portal
- Request Services
As a client I want request for a service on the web portal
- Company Information
As client I want view and get the information of the company on the web portal
- Customer Profiles
As an admin. I want clients to create their profiles when they request for services
- Reports and Analytics
As an admin I want to receive reports about clients behaviour on the web system, how clients failed to achieve their goals while using the system.
As an executive I want to make analytics using the reports we get from the web application
- Technicians Profiles
As an admin. I want to technicians to have profiles so clients can rate technicians work on their profiles.
